

7. Natural Sciences (Biotechnological studies)

INVITATION: Working Group

1. Marine Studies, 2. Aviation and Aeronautical Studies, 3. Automotive, 4. Energy, 5. Space Study and Square Kilometer Array, 6. Fourth Industrial Revolution and Digitalisation, 7. **Natural Sciences (Biotechnological studies)**, 8. Health Studies/Medicine, 9. Feminist, Womanist, Bosadi Theorisations, 10. Student Support and Co-Curricular Activities.

Working Group Session

You are cordially invited to the 3rd 2026 series of CGS-facilitated Catalytic Niche Area Working Group meetings for Biotechnological Studies/ Natural Sciences. The theme for series 3 is “Cultivating Emerging Scholarly Voices within Catalytic Niche Areas”. In this series, we aim to strengthen the integration of emerging scholars, particularly M&D students, postdoctoral fellows and early-career academics, into catalytic niche area research ecosystems.

GUEST PRESENTER:

Dr Mahmood Akbari

Presentation Title:

Designing Medicine at the Scale of Atoms: Simulation, Synthesis, and the Living Cell

Tuesday, 25 August 2026
11:00 – 12:00

Join the Session on MS Teams
