...

Under the theme **Rebuilding African Unity in an Age of Fragmentation: Sovereignty, Solidarity, and the Renewal of Institutions**, the 2026 programme has been designed as a week-long platform for reflection, dialogue, and public engagement on the future of the African continent.

The week will include a range of high-level and public-facing engagements, culminating in the **16th Thabo Mbeki Africa Day Lecture on Saturday, 23 May 2026.**

We would be honoured by your presence and participation in this important week of continental reflection and exchange.
